PROFESSIONAL SUMMARY

Computer Science graduate (B.Tech, 2026, CGPA 8.51) and Python Full Stack trainee focused on building backend-driven web applications with Python, Django REST Framework, React.js and MySQL. Experienced in JWT-secured REST APIs, relational schema design and automated testing, with a published edge-AI project (ICACA 2026). Seeking Software Developer roles.

EDUCATION

B.Tech in Computer Science | Providence College of Engineering, Chengannur, Kerala *2022 – 2026*
CGPA: 8.51 (First Class with Distinction)

Senior Secondary (CBSE) | SN Central School, Mavelikara, Kerala | GPA: 8.7 *2020 – 2022*

Secondary (CBSE) | Delhi Public School, Al Wakrah, Qatar | GPA: 8.74 *2018 – 2020*

TECHNICAL SKILLS

Languages: Python, Java, C, C#, JavaScript, Bash/Shell
Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS
Backend: Django, Django REST Framework, REST APIs, JWT Authentication, Unit Testing (Django Test Library)
Databases: MySQL, SQLite, SQL, Firebase Realtime Database
AI/ML & IoT: YOLOv8, OpenCV, Computer Vision, Model Training & Deployment, CUDA, Jupyter, Raspberry Pi Edge Deployment
Data Science: NumPy, Pandas, Matplotlib
Tools & Practices: Git, GitHub, Postman, CI/CD, Linux, Unity, Data Structures & Algorithms, Claude Code, OpenAI Codex

EXPERIENCE / TRAINING

Full Stack Development Trainee | FaithInfoTech, Technopark, Trivandrum *June 2026 – Nov 2026*
Python Full Stack with Data Science & Generative AI Program

- Building full-stack applications with Python, Django REST Framework, React.js and MySQL, including the CarePoint clinic platform (team project) and a Workforce Administration Portal with JWT authentication and CRUD APIs.
- Writing automated unit tests with Django Test Library; working with Git/GitHub, Postman and CI/CD workflows.

PROJECTS

Clinic Management System – Doctor Module *Team Project*
Django REST Framework, React.js, MySQL, JWT, Postman, Git/GitHub

- Built the Doctor Module of a four-role clinic platform (Doctor, Receptionist, Pharmacy, Laboratory) using Django REST APIs and a React.js frontend.
- Implemented role-based access with JWT authentication: token-based patient queue, clinical examination, consultation history, lab test requests and read-only lab results.
- Designed a 20-table normalized MySQL schema (Role, User, Doctor, Patient, Appointment, Consultation, Prescription, LabReport) with a separate User identity linked to Doctor/Staff profiles.
- Tested all APIs with Postman and collaborated with the team using Git/GitHub.

Real-Time AI-Based Pothole Detection, Alert & Monitoring System *ICACA 2026*
YOLOv8, OpenCV, Python, Raspberry Pi 4, Firebase Realtime Database, REST APIs, JavaScript, Google Maps

- Trained and optimized a YOLOv8 object detection model (Jupyter, CUDA, data augmentation) to identify road hazards, achieving 90% accuracy.
- Deployed the model on a Raspberry Pi 4 edge device, running inference at 5-10 FPS and applying CLAHE and green-channel preprocessing to live video while capturing GPS data.
- Built a cloud sync pipeline over REST APIs, sending base64 event images, confidence scores and JSON metadata to Firebase.
- Developed a responsive web dashboard with live image galleries and Google Maps integration to pinpoint hazard locations.

Voice-Controlled Accessible 2D Fighting Game *ICMTIF 2025*
Unity, C#, Windows Speech API

- Developed a 2D fighting game with dual-input (voice and keyboard) combat to support players with physical disabilities.
- Implemented an event-driven voice recognition system using C# dictionaries to map spoken phrases to in-game actions.
- Built custom 2D physics with Rigidbody2D: collision detection, dynamic hitboxes, state-machine animations and real-time damage calculation.

CERTIFICATIONS & PUBLICATIONS

- Google Cybersecurity Professional Certificate (Coursera); Google Cloud Engineer Learning Path (GDSC).
- **Research paper accepted and presented**, ICACA 2026 Conference; project paper presented, ICMTIF 2025 Conference.
- Ethical Hacking on IoT (CTDS India); DSA in Python (NPTEL); 2D Game Development with Unity (TILTEDU).
- Ranked 2nd in my college in IEEEXtreme 17.0 and 18.0.
